

TO: All Contractors

FROM: WALTER SCHMIDT
Building Inspector and
Code Enforcement Official

DATE: July, 2011

SUBJECT: REQUIREMENTS FOR WORKER'S COMPENSATION

All contractors doing work in New York State must provide either workers compensation insurance or an affidavit from the Workers Compensation Board.

The form required is (CE-200) which can be obtained at their website www.wcb.state.ny.us. Once you are on the site look for forms and follow their instructions.

If you prefer, you can call the Peekskill office of the Workers Compensation Board at (866) 746-0552.

A new form will be required for each project. The new CE-200 form will not be valid for multiple projects like the old wc/DB-100 exemption form.
